

# SAVE THE DATE

**SESHA Speaker Series  
Presented by the PNW Chapter**

**Tuesday, November 7<sup>th</sup>**

**11:00am – 5:00pm**

**Lunch and Speaker Series followed by a no-host Happy Hour**

The SESHAs PNW Chapter invites you to join us for information sessions focusing on EHS for the High Technology sector.

This half-day speaker series is for EHS managers, environmental engineers, safety engineers, industrial hygienists, occupational health professionals, sustainability professionals, consultants, facilities engineers and technicians, operational staff, and students. The speaker series will be held at Henry's American Bar and Grill – Billiard's Room in the Pearl District.

The agenda features information-rich sessions with expert speakers.

- Oregon DEQ – Beyond Compliance                      Dave Kunz, OR-DEQ
- Risk Communication    Lauren Geddes, Intel
- Fire Protection for Advanced Materials              Matt Wyman, PE, KFPI
- OSHA Update    PNW SESHAs
- Rewards and Recognition                                      Jennifer Wycisk, BSI
- Next Generation Operations                                      Jameson Morrell, CH2M

Registration link will be sent out soon!

## **Join SESH**

We are dedicated to communication and education on EH&S issues in high technology industries!

It's FREE to be a part of SESH's community! As a member of our network, you will:

- Receive updates from SESH on the latest news and events
- Learn about educational opportunities on ESH and sustainability issues at our annual Symposium, Local Chapter events and SESH webinars
- Gain access to symposium and mini-conferences proceedings, SESH Journal Archives, and other professional tools

## **History of SESH**

Since 1978, an informal meeting of nine safety and health professionals desiring to exchange safety information has grown into an annual international conference attended by over 250 professionals representing virtually all high technology disciplines. SESH membership has grown to over 1000 members including several countries around the world. As our horizons have broadened, we continue to focus our efforts toward an established line of environmental, health and safety communications. SESH is truly a unique organization dedicated to the prevention of workplace injuries and accidents through the sharing of safety and health information and the promotion of technological advances in high technology, safety and health. Since its founding, SESH has established itself as the premier international organization promoting the effective communication of safety, health and environmental information to the electronics and related high technology industries.
